Great arcade punching action. If you want to move around and build up a sweat in VR because of the crazy non-stop action , this game is awesome. Developer seems like he just wants to create an amazing game , and that's great news.

I love games that get you moving and dodging around your room scale area, they are always the most fun VR games. I can't wait try the latest update and see what else the developer can come up with.. I smashed a Vive controller into a desk today.

Today, was a good day.. Nostalgic asf. Exceclent and challenging.

Inspired by the shooters of the 80's. Wow, I am surprised nobody has made a remake/reboot what have you. Incredible re-playability, immersion, and emergent gameplay.

Brings me back 10 years in time with a single click of a button.. Not worth Buying. I got this DLC through preordering and am glad i didnt pay extra. The weapons are not very good and give no benefit over the starting ones. DO NOT BUY.. Didn't expect to like this, but booy this is an amazing game to play. The story, the stats, items, all it's getting along awesome. I love this game so far and I recomend it.. Pretty damn good, enjoying it so far.. A very nice game.. Watching a steady stream of projectiles tear through thousands of zombies is zenlike. Completed in 2 hours and not a bad hidden object game. Liked the idea of a riddle for the geocache item, although the tutorial could have explained better what that was. Worth the 45p or so I paid for it, but it did get a bit dull after a while.. <3 beat um ups , this is a great little side scrolling beat um up and there are not enough like this. The only thing I don't like is it's singal player and thats kinda a no-no when it comes to beat um ups. Also level system is set up like a tablet game short levels and star based rating system ..I just personally don't like when games are set up that way .

. I've seen alot of good process on this even the storyline is good everything is good if you guys wanna play this game it's worth every cash you or anyone spent on it so yeah it's EPIC!!!!!!!!!!!!!! also developers i have ideas i noticed not a whole lot of people dies because well if you guys get any Zombie movie then watch how they move and how they attack and a whole bunch of stuff oh and some Cinemanic stuff would be Appricated.
