Really enjoyed this game, its a decent game especialy for its price and is definetly worth checking out, that said it does has alot of room for improvment.. Fun little indie shooter. Has some issues that did not impact gameplay for me. Get it on sale or with a coupon. My couple of bucks was well spent.. great top-down zombie shooter - pass levels, kill hundreds of zombies, fight zombie bossess, perks, exploding barrels, weapon shop, level design - everything done properly - game's pretty playable, interesting, addictive: zombies start to attack when you don't see them, so they attack unexpectedly; they ran pass exploding barrels prior their explosion - you have to be quick, exact and move all the time. i could stop playing it only at level 4 :). Even that I got the game for super cheat (thanks to my -90% OFF coupon), I still can't recommend it.

### Pros

- HUD is ok.
- Easy controls.
- Leveling with stats points to spend even if poorly balanced. All for damage bonus then crit bonus and you are good to go.
- Zombies (yhea).
- 3 quality setting and sounds levels. That's all you can tweak in the game, better than nothing, right?

### Cons

- Linear gameplay. The game plays exactly same from the beginning to the end. No active skills/techniques to unlock.
- Enemies "miraculously" appearing not off-screen, no spawn animation.
- Levels are generic, have no surprise, poor interaction and aren't interesting to explore.
- The 7 weapons play the same. All are full auto up to 1000 shots (except for the default one that is unlimited) with no need to reload. No secondary weapon or throwables.
- Short game. Took me 2.5 hours to beat the game and I fully explored all maps but that's optional.
- A lot of truck tires everywhere (!?): over the buildings, in the undergrounds, everywhere but I have my theory: the virus either transformed people into zombies or tires. Not sure which one is the worse.
- Zombies fighting with WTF weapons like oversized plunger (huh), over sized hydrant (oh) or other weird stuff (what's this xD)
- Musics don't fit the post apocalyptic mood of the game and are meh except the one when screen is full of enemies.
- Only keyboard shortcuts are for weapons and main menu. No shortcut for map & skills menu.
- Zombies have green blood.
- The grammar is terrible. I assume it was poorly translated from another language.
- Game is windowed by default but can be switched to full screen with glitchy black bars at the top & bottom.
- Poor in-game resolution and can't be tweaked.. \udb40\udc21. Really great game, I really like it!. Surprisingly a

fun game!

2D-isometric gameplay involving shooting zombies. And not just a generic selection but all sorts of zombies. Some even funny with their plungers.

+ leveling up system

+ weapon store, ammo and armor refills

+ there is a map

+ more then one level

- I can walk over planks but not over fallen lantern posts...

- enemies spawn sometimes right in your face

Yes I recommend it, you get lots of gameplay for even less then a buck.
